Baby Mackey, your arrival begins a new generation in a family that has been adding a generation about every 20 years for at least 150 years. Someday you may hear about the population explosion which followed World War II and involved your grandparents and your parents. Our family is a population explosion in itself. At the time of your birth there are nearly 100 direct descendants of the J.W. Montgomerys. This story is being written to help you or your children to know about your roots. The facts in this story all relate to you, and it comes to you from your great great great aunt.

THE CORNSTALK STORY

Duane has enjoyed frightening small children in the family by telling them how mean I am. Duane does not really remember the time he tells about, when he was about three and I was five. I'll never forget my Mother coming out the back door on her way to "tan my hide"-- but I'm getting ahead of the story.

Duane and I were playing farming and I was the farmer and Duane was the horse. I said "giddap" and my horse didn't move. I said it again with no response. There was a dried cornstalk on the ground so I picked it up and hit my horse to make him giddap. I was so into the make-believe I was shocked to see my horse run off towards the house crying. And, as I mentioned, Mother came out and gave me a good spanking. I was so mad at my horse I wouldn't speak to him the rest of the day.

3b Gerald Lee Collins, the twelfth and last grandchild for the J.W. Montgomerys, was born November 12, 1929. He was born in Osborne at his grandparents' home. I was six, Duane was five and we were hurried off to bed that evening. When the baby arrived Chet was so excited he carried both of us out to see the new arrival. He never forgave us for not remembering it the next morning. Gerald Lee's schooling was in Downs, and by the time he was out of high school there was still a war to win so he entered the army. He returned to Downs and Married Beulah Wood. Beulah was born February 11, 1934 to Ben and Alice Adelia (Sherbondy) Wood. They live in Newton, Kansas. She was the chief operator when the dial system was brought in, and then became the cashier. She retired from the United Telephone Company on October 1, 1964, after 34 years of service. She worked at the Osborne Hospital as a nurse's aide for a short time after her retirement. Her health failed and she entered the Parkview Nursing Home October 1, 1976.

They were divorced and Orpha moved to Denver and then to Oakland, California. She married Kenneth Hutchinson and they were divorced. Ken died in 1969. She lives in Hayward.

Bill suffered from asthma all of his life and the attacks were particularly severe during the summer. He was in the hospital with an attack of asthma when his heart failed on June 29, 1970.

When I was growing up in Osborne, Alice lived in Downs and Bill was in Alton and later in Downs. So Alice's boys and Bill's kids and I grew up together. Don is the only one who has stayed in the county which makes him the mainstay of the family. For Osborne County is home for the five of us and always will be.

5b Frances Lorene Montgomery was born November 26, 1927 in Colorado Springs. Her story,

"Started to kindergarten in Osborne in 1932. We moved to a farm two miles south of Alton in late fall of 1932, and I had to wait until the fall of 1933 to continue school as Alton did not have a kindergarten class. We lived on the farm from 1932 until 1936 when we moved to Downs. One of the sad moments when we

left the farm was when we had to leave our dog behind. He had been raised on the farm and Dad said he would be trouble in the town. Dad had to go back to the farm some time later, and the dog was so obviously glad to see Dad that he got to come to town. The dog lived to a ripe old age in town.

"I remember the Montgomery family coming to the farm for Sunday dinners and having jello salad which was a real treat in those days. Mother caught me going out the door with more than my share of jello and made me return it. I also remember the dirt storms in the time that we were on the farm. The skies would turn so dark that one couldn't see the sun. My Uncle Norman spent some time with us on the farm, and he was one of my favorites. We attended the Methodist Church in Alton. This period was during the depression and to complicate surviving, Dad was unable to work. Mother worked for WPA in the sewing room in Alton, so as to our financial condition it was below poverty level. I do not remember ever being hungry or without sufficient clothing including shoes. Mother provided some way. I'm sure Grandfather and Grandmother Morical helped us as much as they could, and that was probably the difference between surviving or not.

"My brother Don and I were very close when we lived on the farm, as we spent our summers alone. Mother worked in Alton and Dad was staying in Osborne to be closer to the doctor. To avoid staying home alone during the day while Don went fishing I had to agree to catch grasshoppers for him for bait.

"Moving into town from the farm was a difficult adjustment for both Don and me. The schools were new and different, and even though the town was small, it seemed large and frightening to us. We soon adjusted though. We both completed elementary and high school in Downs. I received a scholarship to Washburn University and left Downs for Topeka in the spring of 1945. I left Topeka in the winter of 1945 for Los Angeles to live with a friend and her Mother. I met my husband, William Lee Qutermous, Jr. in the fall of

1947 and we were married early in 1948. He was in the navy and was stationed at Oak Harbor Naval Air Station in Washington state. We traveled in the navy for the next 15 years during which time our three sons were born.

"Bill was born August 18, 1923, to William Lee and Bessie (Quannell) Qutermous. He was born in Louisville, Kentucky. He retired from the navy in 1962 and we came to the Bay area of California to continue our lives. He went to work for Lockheed Space and Missile Company and I started to work in real estate as an escrow secretary. My real estate career begin in 1963 and has progressed to my present position as owner/broker of Preferred Realty in Fremont, California. My son Michael is associated with me.

"During my real estate career I branched out into the musical field and played the organ professionally for a few months. I found the music business to be very demanding, and non-productive money-wise. I had to choose between real estate and music, and since the former provides a good living, I opted for real estate. My interest in sports include snow and water skiing, golf, hot air balooning, boating, swimming, jogging, skating."

Children of William Lee and Frances Lorene (Montgomery) Qutermous

Nancy was born August 10, 1951 in Maslin, Ohio. Nancy is a

title officer.

5b2 Bruce Lee Qutermous was born December 8, 1953 in Memphis, Tennessee. He attended schools in California and was with the army in Korea. He married Donna Wilson who was born November 6, 1961 to Waldo and Pat (Noordeen) Wilson. Bruce works at Lockheed.

Child of Bruce Lee and Donna (Wilson) Qutermous

5b2a Bruce Lee Qutermous, Jr., born April 20, 1979 in Hayward

5b3 James Lee Qutermous was born April 2, 1956 in Memphis, Tennessee. He completed Beauty School in California and works at the Jade House of Beauty in San Leandro.

6 Elsie Lucille Montgomery was born November 27, 1906 near Studley. She went through school at Greenwood. She worked as the office assistant for a doctor in Osborne, and as a sales clerk in Lawrence and Kansas City. She joined the catholic church when she lived in Lawrence. She died April 15, 1936 in Kansas City at the age of 29 and is buried in the catholic cemetery at Osborne.

7 James Norman Montgomery was the third son, named for his father and called Norman. He was born on the farm near Studley on March 3, 1910. He attended the country school and then worked for the telephone company as a lineman. He married Hazel Martens on September 3, 1931. Hazel was the daughter of Gustava and Bertha (Leonhardt) Martens. She died October 7, 1933 of leukemia. Then the telephone company enforced the nepotism rule and refused to let Pearl and Norman work in the same office. So Norman was transferred to Burlingame. There he met Matilda Rechitti and they were married on December 15, 1934. This marriage ended in divorce and Norman's career with the telephone company ended when he developed epilepsy. He returned to Osborne and became an electrician.

Life was never easy for Norman. He became an alcoholic and, after several years, stopped drinking quite suddenly. Mother said she told him he was killing her with worry. He was an avid pool player and spent hours working crossword puzzles. He died February 9, 1971 of a cerebral hemmorhage.

8 Isla Awyn Montgomery, the author, was born on the farm south of Osborne, February 12, 1923. The family moved to Osborne and I began my schooling in the fall of 1929. I received the BA degree from Washburn University in 1946, and worked in the Registrar's Office there until November 1948 when I moved to Denver and began to work as secretary in the Department of Anatomy at the University of Colorado School of Medicine. In July 1954 I became Registrar there and retired from the Medical Center in November 1978.

I am a member of the Christ Church United Methodist, a member of the board of the American Gloxinia Gesneriad Society, a National Council judge, African Violet judge, Gesneriad judge. As of 1980 five African violets have been introduced and registered by me, and friends in the East have named one for me.

The pronunciation of my first name is a source of confusion to many. It is the same as the first four letters of the word island. Don't blame my parents, there were four children at home, teenage and up, plus Alice down the road, and they made quite a project out of naming me. I don't know who won.

Coming along so late in the life of my parents has placed me in several unique situations. I saw Grandpa Long when I was very small, and when I get to meet Shane Mackey, that will be 7 generations in one family. Who knows how many there will be by 2020. In 1980 my parents would have been cautioned that a pregnancy so late in life might result in a retarded child. They would probably be offered the alternative of an abortion. Lucky for me my folks did not have these worries or alternatives.
